Texas Instruments

Parking and Traffic Information

On the other side of this sheet, you will find a map of the Texas Instruments Expressway site. The map is color coded to show you where you may park your car, depending on the building where you are assigned to work. While you are at TI, you are required to park your car in the designated spaces within the color coded lots.

Parking and traffic regulations have been established to promote the orderly movement and parking of vehicles on our premises and to promote the speedy and safe movement of traffic on and off the site. The following actions are violations of good traffic practices and of the company's regulations.

Minor Infractions

Effective January 1, 1981, the list of minor infractions of Dallas-area parking and traffic regulations is as follows:

1. Failure to display proper vehicle identification in the designated location(s).
2. Display of more than one set of individual's decal(s) on an automobile. (Except that immediate family members residing at the same address may display two decals on a shared vehicle.)*
3. Parking in "wrong building" zone.
4. Parking in fire zone, shipping and receiving areas, streets and roadways not designated for parking. All vehicles must be parked between two parking stripes.
5. Parking on islands, grass, walkways, gravel, or dirt areas.
6. Exceeding site speed limits of 20 mph on roadways and 10 mph in parking lots.
7. Unauthorized parking in marked area.
8. Failure to park in a designated space (over the line, taking two spaces).
9. Failure to obey traffic control signs.
10. Allowing another individual to use decal/permit issued to you.
11. Using another individual's decals.
12. Other (for any other reason considered contrary to good driving/parking practice).

*"Immediate family members" includes all those listed under the paid time off policy on page 11 of TI & You, Personnel Policies and Procedures.

Major Infractions

Effective January 1, 1981, the list of major infractions of TI Dallas parking and traffic regulations is as follows:

1. Physical violence or threat of physical violence toward a TI Security Officer.
2. Hit and run driving.
3. Reckless driving.
4. Driving while intoxicated or under the influence of drugs.
5. Falsification, alteration, or deliberate misuse of a parking decal or permit to avoid citations.
6. Six citations or more in any 12-month period.
7. Failure to move vehicle upon request of a TI Security Officer.

We request that you make the stay of all of us on TI premises more pleasant by avoiding actions which would result in parking and traffic violations. Violation of these regulations will result in disciplinary action.

Telephone Call Boxes

Seventy-four telephone call boxes are located throughout the parking lots as noted on the reverse side. The telephones connect directly to the Security Control Center, and are to be used to report anything considered unusual or suspicious.

An emergency "Panic Button" is located below the call box. When the "Panic Button" is pushed, it sets off an alarm bell and a flashing red light with a report automatically relayed to the Security Control Center.

False alarms may result in termination.
